A passionate and dedicated Roblox Game Developer focused on crafting immersive and innovative gaming experiences. Specializing in Luau programming to bring unique game mechanics and engaging gameplay to life.

EXPERIENCES

Lumina Production

Jakarta, Indonesia

Roblox Game Developer – Luau Programmer

Sep 2024 – Present

- As lead programmer, developed key game systems in Luau, including DataStore, Inventory, Cars, Items, and core UI functionality.
- Implemented UI/UX designs from the design team into functional Roblox Studio interfaces, scripting all interactive elements for a smooth user experience.
- Collaborated with the team on development roadmaps and new feature ideas, actively contributing to project planning and innovation.
- Optimized game systems and scripts for smooth performance across various devices, ensuring broad accessibility and a positive player experience.

Topic Indonesia

Jakarta, Indonesia

Roblox Game Developer – Luau Programmer

Dec 2020 – Jun 2024

- Developed core gameplay systems and key features (AI, UI, inventory, multiplayer) in Luau for Roblox horror games like The Monox, ROHANGAN, & Living Doll.
 - Played a key role in game design from concept through to final implementation, and collaborated extensively with all team members throughout the full development cycle.
 - Improved development efficiency by creating reusable code modules and standardizing asset, streamlining processes across studio projects.
 - Spearheaded game launches achieving 1M+ visits in under 2 months and 100K+ visits in the first month.
 - Instrumental in generating over 1 million Robux in studio revenue through successful game releases.
-

EDUCATION

Dharma Karya Vocational High School

2022 – 2025

Final Score: 89,78
